Warrock-Richardson Almanac. The old familiar visitor, the warrocast Richardson Almanae, for 1905, has just been issued by the new publisher. Clyde W. Saunders who last year acquired the publication. This compendium of statistical and political information and a vast deal of other valuable data, is heardy reference book, indispensable in Yirginia or North Carolina newspaper offices and valuable in the home as well. In this volume of nearly a fundred pages are unbraced thousands of facts as to the Sate government of this and adjoining Commonwealth's political statistics, astronomical data, schools and colleges, government of the United States and various other information. All of this is well indexed and arranged, making the volume well worth the ourclass price. A new feature is a report of the vote for President by States. The report is complete as far as it was possible to make it at the time the publication went to press. Richardson Almanac, for 1905, has just

THE REASON YOU HEAR GANS RADY CRAVENETTE OVER COATS TALKED ABOUT SO MUCH IS BECAUSE THEY ARE WORTH TALKING ABOUT.

This assemblage of Coats has been made by just skimming the cream off the best that have been shown in this country this season.

The chief of this department never dips down into the ordinary for anything shown in his department. It must have the merit of exclusiveness and originality or it possesses no interest.

Price has nothing to do with it. We've seen garments that may be classed among the very high-priced creations, yet they don't possess that charm, that indescribable something that shows the artist touch in their creation. They look bad copies of something else. They're incomplete.

CHANCE OR LOTTERY

It Costs Nothing to Vote and Not a Cent Is Made by the Plan.

The competition for the handsome fourvolume set of Tissot's Lafe of Christ still ontinues, with but a week more to run. The contest will close on Monday, Decemnounced as soon thereafter as it can be scertained.

This contest is in no sense a lottery nor chance enterprise nor a money-making awarding this valuable set of books and permitting the readers of The Times-Dispatch to say to whom the set shall permitting the readers of the limes-bispatch to say to whom the set afiall be given. Incidentally, it will be a worthy compliment to the minister hom-ored, and one which will cost neither him nor those voting for him a penny. As it costs nothing to vote there can be no impropriety in the award of the prize nor in the method of awarding it.

nor in the method of awarding it.

Any person desiring to vote may vote as often as he d sires, the only condition of voting being that the coupons printed every day in The Times-Dispatch must be used. Save the papers each day out the coupons fill them out and bring them in. Ask friends and neighbors to give their coupons and fill out and sond them in. In this way a few persons with a bit of energy and determination can foll up a large vote for their paster or any other minister they admire. Look out for, the coupons each day and cut them, out and send them in, signifying for whom you desire them to be counted. Friends of Rey, J. B. Hutson, of the Pine Street Baptist Church, appear to have been the more active thus far, that

man crude and unpalatable, and a large duantity had to be taken to get any effect.

Nowadays we get all the beneficial offects of sulphur in a palatable, concontrated form, so that a single grain is farmore effective than a tablespoonful of the crude sulphur.

In recont years, research, and experiment lave proven that the best sulphur for medicinal use is that obtained from Calcium (Calcium Sulphide) and sold in dfug stores under the panje of Stuart's Calcium Wafers. They are small choosing to content principle of sulphur in lightly concentrated, effective form, Fow people are aware of the value of this form of sulphur in restoring and maintaining bodily vigor and health; sulphur acts directly on the liver, and exceptory organs and purifies and enriches the blood by the prompt elimination of waste material.

Our grandmothers knew this when they dosed us with sulphur and molasses every spring and fall, but the crudity and impurity of ordinary flowers of sulphur, of which Stuart's Calcium Wafers is undoubtedly the best and quost widely used. They are the natural antidote for liver and lithosy troubles and cure consulpation and purify the blood in a way that often surprises putlent and physician alike.

Dr. R. M. Wilkins, while experimenting with sulphur remedies, soon found

he and Miss Young where here to be muriciped, and no license has been issued from the clerk's office for them.
